

PRECAST POLE BASES MADE SIMPLE

Experienced Florida-based
precaster offering patented
pole base systems

THE FUTURE OF PRECAST LIGHT POLE BASES

We have teamed with a World-Renowned Proven Leader in the Precast Industry – Recon – to offer Patented LPB Light Pole Bases in the Florida and Southern US Markets. The hard-working electrical contractors, developers, utility companies, and distributors of these markets have long wished for an easier way to purchase precast concrete pole bases.

The Solution You've Been Waiting For

- Fast, easy and efficient installation
- Produced in a controlled environment ensuring quality and consistency
- Availability when you need it
- Unique universal features to meet your project needs
- Engineered and tested
- Backed by a team with the knowledge and resources to make your next project a success

- 1 Adjustable anchoring system can accommodate bolt circle diameters from 7½" up to 13½"
- 2 Can easily accommodate light poles up to 25' high ~ taller depending on the conditions
- 3 Able to accommodate multiple conduits from all directions
- 4 Large side openings leading to a central vertical pathway

Anchor Bolts & Hardware are Included

Baunovo pricing includes anchor bolts, instructions for simple on-site installation, freight, engineering, and short quotation lead times based on Price List and your chosen discounts! No more waiting for quotes or trips to the precast plant. Conduit and anchor bolts are client-installed onsite via easily accessible (cast-in) handholes on all four sides and our patented adjustable bolt circle hardware.

THE FUTURE OF PRECAST LIGHT POLE BASES

Baunovo is privately held and family owned – dedicated to producing a quality product and providing fast, friendly service. Baunovo'S LPB Bases are in stock and ready to go for smaller projects or can be pre-purchased and stored for use on future projects with no wait time.
